“RescueStat has gone over and beyond to ensure that all of my customer service needs were met, and I am more than satisfied with the results.”

NAOMI, TRAYLOR BROS

# BE S.A.V.E. READY WITH RESCUESTAT

Our logo is a representation of the four chambers of the heart and the four necessary components of accomplishing our mission, all of which have to work in coordination to function properly and support life saving.

Scout means to listen or to observe in order to obtain information or evaluate. Our patented IoT remote monitoring technology does exactly that, it senses if your AED is present and then listens for failures. If your AED fails its self-test, ScoutRMS alerts you right away to make sure your AED is always ready!

Apollo Program Management is your mission control to get your AED program off the ground and return your people safely back home each day. Survival rates for sudden cardiac arrest (SCA) are abysmal at less than 10%. Making an impact can seem like shooting for the moon. Luckily, we are experts in doing that every day, with our average survival rates at 70%.

Vera Training Solutions is our CPR/AED virtual training offering. We understand that you are busy and have listened to your demands for flexible training solutions that fit your life. We offer American Red Cross Training in a virtual format and give you everything needed, including the manikin, first aid kit, and mock AED, to practice and stay empowered. Don't get trained, get Vera-fied!

Eva Empowerment Resources is focused on a belief not just that our company can do good, but that our customers, through their creativity and desire to help, can do even more! We provide free resources and connections to pass the torch of knowledge. With Eva, you can join in our mission to save lives and protect organizations from Sudden Cardiac Arrest.
